## **PSC to Hold Public Hearing on Forward Wind Project**

MADISON - The Public Service Commission of Wisconsin (PSC) will hold public hearings in Brownsville, Wisconsin on Tuesday, June 21 regarding the Forward Wind Project in Fond du Lac and Dodge counties.

Citizens are invited to provide testimony on Forward Energy's request to construct a 200 megawatt wind electric generation facility. The project includes 133 wind turbines located on a project area of 32,400 acres. Forward Energy must have PSC approval before it can construct the wind farm. The facility may also require other state and local permits.

The public comments on Forward Energy's request will be part of the record considered by the three Commissioners as they make their decision to approve, modify or deny the project.

The public hearings will be held in three sessions:

**Tuesday, June 21, 2005  
10:00 a.m., 1:00 p.m. and 6:00 p.m.  
Brownsville Community Club  
871 Main Street  
Brownsville, Wisconsin**

Last May the PSC issued the final environmental impact statement on the Forward Energy Wind Project. The final environmental impact statement and other documents associated with Forward Energy's application, can be viewed on the PSC's Electronic Repository System at <http://psc.wi.gov/>. Click on ERF System, select Search Electronic Repository System and enter docket 9300-CE-100.

The Brownsville Community Club is accessible to people in wheelchairs. Any person with a disability who needs additional accommodations to participate in this proceeding should contact James Lepinski at (608) 266-0478.
